

MG Car Club (South West Centre) Calendar of Events 2021

Every year we organise a variety of events for you to attend and enjoy in your M.G. new or old, whatever the condition. In this leaflet you will find a calendar to tell you when and where things happen as well as a brief description of what goes on plus a list of the regular pub meetings (natters).

The whole purpose is to encourage you to enjoy driving your M.G. with likeminded friends.

Visit the website at www.mgccsw.com for the latest information, entry forms and so much else or please feel free to email the event organiser. We list the names, & e-mail addresses by the event.

We have a page on Facebook, www.facebook.com/MGCCSW and a WhatsApp Group, email chairman@mgccsw.com to be added to the group.

We look forward to meeting you soon.

M.G. Car Club South West Committee

BRIEF DESCRIPTION OF EVENTS

South West Centre Championship—All South Western Centre members get **free** entry in the South West Drivers Championship, see our website for details.

Social Run— a social run is a non-competitive road event which is designed for people to enjoy the company of other like-minded souls and their cars. These runs are often from/to a place of interest down 'B' and 'White' roads that you never knew were there. Time to look around, have lunch and a chat then home again.

Touring Assembly – similar to a social run but with a prescribed route and stopping point at places of interest. Route finding is generally easy; a road book of directions is usually provided. Enjoy the company of other enthusiasts at the refreshment halts, and at start and finish venues.

Autotest*— A timed event that consists of a number of routes around bollards. The event can be run on tarmac or grass.

Autosolo*— Similar to an Autotest but all forwards around numbered cones. Competitors split into 3 groups, competing, marshals and preparation. Once the entire competing group have had their runs, the groups swap, competitors become marshals, marshals become prep and prep group then compete.

Kimber Classic Trial*— A number of "gentle", uphill, slippery sections, including a ford, linked by road sections.

Car Trial*—several muddy, slippery uphill "sections" on one site. The further up each section you get the better. Gets your car muddy but tremendous fun. Passengers are mandatory.

Navigational Scatter Rally* - The idea of a Scatter is, as the name suggests, to scatter the competitors all over the countryside. This is achieved by giving a number of locations that can be visited in any order. When you reach one of these locations you will find a clue which will be an answer to a question. You will

MG Car Club (South West Centre) Calendar of Events 2021

need an OS map of the area where the scatter is being held and when the event starts you will be handed a sheet of paper containing the location of the points you have to visit to answer the questions. Your first task is to plot these on your map. The regulations will state the minimum number of points to visit and the maximum time allowed. Penalty points will be awarded if you are late back to the control point.

Sprint—a speed event on tarmac timed to 1/100th of a second, very fast. A Motor Sport UK competition licence, crash helmets and fireproof overalls are required.

Wiscombe Hill Climb—an uphill sprint! A stunningly beautiful venue, excellent spectator sport with a wide variety of cars entering. A Motor Sport UK competition licence, crash helmets and fireproof overalls required.

* Motorsport UK RS Clubman's Licence required for Auto Tests, Autosolos, Trials and Navigational Scatter Rallies
